

The Hills of Connecticut

Connecticut has lovely rolling hills
Cascading over towns that once had mills
As one looks out through frosty window sills
That often are the source of winter chills.

The Charter Oak reflects a state that still
Remembers how to properly fulfill
The dreams of every citizen who will
Embrace a challenge to enhance their skill
Accepting what it takes to pay the bill.

Like Nathan Hale who clearly had the will
To wage the fight for liberty until
The British found him at a bar & grill.
Despite his loyal passion and goodwill,
He couldn't override the bitter pill

That ultimately sealed his tragic fate.
This hero of the Constitution State
A tireless scout and famous advocate,
Did everything he could to demonstrate
How love for country we should celebrate
No matter if the obstacles are great.
